## **Manta Point Snorkeling**

Manta Rays are spotted mostly on the northern side of the North Ari Atoll, nursing in bays and bottomless lagoons off neighboring islands. These amazing creatures are fascinated by the mass pool of plankton; each year an enormous school of Manta rays visit the warm waters around North Ari Atoll. Snorkeling with Manta Rays can be defined as a dance underwater, as some of most graceful creatures slide around near you in the water, winding and rotating with the tides, offering an unforgettable enthralling sight. Each year, Manta Ray snorkeling reaches the topmost pleasing trip for our guests

## **Whale Shark Adventure**

While swimming with whale sharks in the Maldives is a phenomenal experience, it's important to know what to expect before you go to ensure it's the type of excursion you would actually enjoy. While they are called whale sharks, these enchanting creatures are actually harmless, gentle giants and feed mainly on plankton, but will still probably get your heart pumping based on their size alone. Additionally, if you are not a strong swimmer, it might be best not to partake in this activity as good swimming skills are a must.
